

Stencil Clean Rolls NV-JB50

Description

JB50 is a white stencil cleaning non-woven paper made of Polypropylene with longer fibers, manufactured by heat-sealing without chemical ingredients with excellent features of environmental-friendly, non-toxic, breathable, soft, lint-free and high water/liquid absorption. Its alveolar design allows collecting more solder paste and also reduces the consumption of solvent. JB50 can be applied for wet cleaning with IPA, dry cleaning, and vacuum cleaning.
